Our File: FOI-2012-024

Dear []:

Re: Freedom of Information and Protection of Privacy Request

I am writing about your clarified request of September 17, 2012 to British Columbia Ferry Services Inc. as follows:

All documented operational safety incidents, inclusive of mechanical failure or deficiency reports, which were reported to the Operations and Security Centre from June 2009 to September 17, 2012.

We provided our response to your clarified request on October 15, 2012. By email dated October 18, 2012, you asked that the record we provided be revised to include "a brief descriptor or incident type and severity rating." A copy of this revised record is enclosed.

There is no fee for this record.

In your email, you also suggested that the record you had received was "not inclusive of the mechanical failure and deficiency reports". In accordance with your request, this record was generated to include operational occurrences, categorized under the "safety" type, for the dates specified. This would have captured any occurrences with a "mechanical failure or deficiency" aspect that had been so labeled. It would not have included, nor have we understood your request to be seeking, any and all "mechanical failure or deficiency reports" beyond this particular scope.

If you have any questions, please write or call our office at (250) 978-1502.

Sincerely,

Original signed by
