

**Request under the *Freedom of Information and Protection of Privacy Act*:**

*Information and records with regard to the upcoming warranty and up-grade program for the Baynes Sound Connector. Specifically . . . what upgrades are being planned by BC Ferries outside the warranty?*

**Response:**

The upgrades to the *Baynes Sound Connector* currently planned or completed by BC Ferries outside the vessel's warranty are:

- An isolation modification to both hydraulic tanks;
  - Installation of an ultrasonic antifouling system for the two sea chests;
  - Upgrade of seawater isolation valves; and
  - Installation of engine room drain check valves.
-
